LIQUIDATIONS WEAKENED CORN SOME

Decline in the Price of Hogs Was One Reason Assigned for the Weakness in Provisions-Elevator Room Becoming Very Scarce.

CHICAGO, Ill., Feb. 20.-The visible supply of wheat unexpectedly showed a decrease today and turned sentiment to the bull side. The market closed at an improvement of %c. Corn was weak under continued New York liquidation of long stuff and declined 15c compared with Saturday's closing prices. Provisions were weak and lower all the session, and rested with losses of 20c in pork and 25c in

Wheat started off extremely weak with but little business; cables were lower; domestic markets heavy. A considerable increase in the visible supply was expected and the New panicky. All this affected the market here quite unfavorably, and there was quite free selling for a time under which wheat went off to he below the panic figure of last week, and It looked for a time as though it was headed for a still lower level. Later there was a sudden change for the better, and a quick advance

den change for the better, and a quick advance of le from the lower point, but much of the mprovement was lest.

The advance was almost entirely due to the surprise lurnished by the visible supply, which, instead of showing an increase, made a decrease of 759,000 bu. This created momentary alarm among those who had sold early, and there was something of a scramble to get back the wheat. The clique brokers weemed to be buying a good deal of July on the weak spots, but on the rallies sold moderately of May. The opening was about the same as Saturday's close; ruled weak and declined 14% &c. then became stronger, and a firer one or Mc, then became stronger, and after one or two fluctuations advanced be for May and Mc for July, then ensed off Mc, held steadler, and the closing was Mc for May and Mc for July

There was some reference to the elevator room being scarce, that probably not to exceed about 1,000,000 bu, working capacity remained in the elevators here and that vessel room was also pretty well taken up. It was also remarked that it was on the belief that storage room would be soon all taken that the combination, if any existed, was buying wheat, thinking that the market could be then controlled more easily. 4rolled more easily. In corn there was a continuation of the de

In corn there was a continuation of the desire to liquidate noted during the closing days of last week, although the decline brought fair covering of short lines which showed a profit. The weakness in the stock market made itself felt and outside speculative orders were largely on the selling side. May delivery was a part of the time relatively weaker than July, the difference widening to %c premium for the latter.

a part of the time relatively weaker than July, the difference widening to 5c premium for the latter.

Longs liquidated freely in oats and the weakness in carn also affected the market. There was good buying by shorts, and after a decline a rally of 4c followed, but the close was easy at a net loss for the day of 4c.

The reports from the yards of a decline of from 5c to 10c in the price of hogs was one reason assigned for the weakness in provisions. Pardridge was a vigorous pounder of pork;

Pardridge was a vigorous pounder of pork; Logan, Mitchell and Schwartz-Dupee were free sellers. Nelson Morris, Lamson Bros. and Bwift were the most prominent buyers. Estimated receipts for tomorrow: Wheat, 290 cars; corn, 450 cars; oats, 290 cars; hogs, 15,000 head.

British Grain Trade Review.

London, Feb. 20.—The Mark Lane Express in its review of the British grain trade says: English grain is firm, 6d to is lower than early in the month in forty of sixty markets. In London there has been an average advance of 6d. Foreign wheat is steady in London for red winter and Calcutta, but weak for California. American flour is 3d down on the week. The home deliverles of wheat and flour have amounted to 37,000 quarters. Wheat is expected from Australia to the amount of 290,000 quarters, and from Russia to the amount of 55,000 quarters. Corn has risen in eight markets out of thirty. The demand exceeds the shipments from America and Russia combined. British Grain Trade Review.

New York, Febr 20.—Business in dry goods was affected somewhat by the return of severe cold weather, following a heavy snow fall, but the orders by mail were numerous, showing the breaking up of stocks in distributors hands. Wants were general, embracing almost everybody, and of moderate size. Stocks are light and there is enough doing to keep the market in good shape and firm in tone. The tone in all woolen fabrics has improved of late. Business in clothing woolens is about over.

STOCKS AND BONDS,

Enormous Liquidation of Reading the Feature of the Day.

New York, Feb. 20.-Wall street was treated again today to a continuation of the enormous liquidation in Reading and the transactions in that stock were even greater than on the preceding two days, very closely approximating 1,000,000 shares in that stock alone. The further concessions in its price were on a parity with the amount of business done, 8% per cent marking the extreme decline and at the close it was only two per cent better, showing a net toss of 6% per cent for the day. There was an active business in the general list which at any time would have made a large day, but the interest in the Reading episode completely eclipsed that in anything else.

It early became whispered that a receivership must follow and a decline of nearly 7 per cent was established, but reassuring discent was established, but reassuring dispatches from Philadelphia started a covering
of shorts and a rally of over 2 per cent was
brought about. The official announcement of
the fact followed however, and a drop of 4 per
cent to the lowest price of the day was the
immediate result. The excitement attending
the enofmous transactions was great indeed,
but was not so pronounced as the immense
figures would seem to indicate. Wall street
is, as it were, a spectator of the contest and
seemingly has nothing to lose whichever party
becomes the possessor, and three days of extreme depression in Reading and its allied
stocks, following a period of depression among
the industrials, has failed to cause a single
failure on the street.

the industrials, has failed to cause a single fallure on the street.

The feeling, it cannot be denied, was rather panicky, not only in Reading, but also in New England and Northern Pacific preferred. At the opening New England on comparatively small transactions dropped even more rapidly than Reading. At the decline it was met with good support and recovered nearly the entire loss, closing at the highest price of the day with a net decline of only 4. Northern Pacific preferred was sold heavy early in the day on the developments between the stockholders' committee and the management. An opening committee and the management. An opening decline of mearly 3 per cent was followed by further recession to 43, and although the pressure to sell was abated, the stock rallied

further recession to 43, and although the pressure to sell was abated, the stock rallied feebly, reaching 44½ at the close, which showed a loss of 4¼ per cent for the day.

The receivership for Reading was interpreted as marking the final end of the coal compination and the other coal stocks, especially Lackawanna and Jersey Central, retired sharply, each losing about 4 per cent. Few other moments of importance were seen in the rallroad list, but Manhattan was weak again and was driven down to 157, but it rallied 2 per cent and at 159 showed a net gain of 2¼ per cent. St. Paul was especially weak and after a substantial rally showed a loss of 1 per cent. The industrials, with the exception of Sugar were not especially prominent in the dealings, but considerable strength was shown in Cordage, which rose 1½ per cent for the day, while Chicago Gas receded 1½ per cent. Sugar, sold neavily in the early dealings and dropped away from 123 to 120½, but inside support was forthcoming and it rallied to 125½, being the strong feature of the late dealings. It was unable to hold the entire raily, and at 124½ was up only ½ per cent for the day. The following are the closing quotations of the leading stocks on the New York Stock exchange today:

Commonish light stuff and odds and ends sold down as low as \$3.65. Business was rather slow throughout but under the circumstances there was a disposition on the part of both buyers and sense to come to terms and a very fair clearance was finally effected.

Butchers' stock and canners changed hands at fully steady prices. There was a good line of buyers on nand and the movement was active from start to finish. Really choice stock was about as scarce as really poor stuff. Prices ranged all the way from \$1.75 to \$3.75, with the bulk of the desirable offerings at from \$2.35 to \$3.50. Good to choice veal calves were in active demand and stronger at from \$5 to \$6, but there was no particular change in the common large stock, which sold indifferently common large stock, which sold indifferently common large stock, which sold indifferently at around \$2.50 to \$4.50. Rough stock of all kinds was in good demand and firm at from \$1.95 to \$3.70.

81.95 to \$3.70. Business was very dull in the stocker and feeder line. There was a very limited country demand, and as the offerings happened to be unusually liberal prices went off anywhere from 15c to 25c on all grades. Represen-

Hogs—The hog market was lower again to-day—a decline of 15c to 25c in two days. All eastern markets were lower, and although the offerings here (fresh and stale about 3.500 head) were not at all heavy, with no shipping and but little speculative competition, local buyers had no difficulty in pounding the market 10c to 15c lower than Saturday's average trade. The range of prices was comparatively trade. The range of prices was compa narrow. Choice heavy hogs sold as \$8.10, with common light stuff as low resentative sale

Chicago Live Stock Market.

Chicago, Ill., Feb. 20.—[Special Telegram to The Bee.]—Cattle sold from 10c to 15c per 100 lbs, lower. Such cattle as sold at from \$3.75 to \$4.85 on Friday last were slow today at from \$3.40 to \$4.75, and cattle that were saleable at from \$5.25 to \$6.10 were today quoted at from \$5.10 to \$6.00. The market was slow all day and weak at the decline.

Good hogs whether light or heavy were steadily held. Only a small part of the recipits graded above common and as the inquiry was generally for something better the market for "off grades" was lower—from 5c to 10c lower than Saturday. The close was firmer than the opening because of the fact that the arrivals proved to be something like 3,000 head less than the first estimates. There was nothing here good enough to bring more than \$8.50 and only here and there was there a sale at better than \$8.35. From \$8 to \$8,35 took the largest part, light weights selling principally at from \$7.95 to \$8.10 and from \$8.15 to \$8.30 buying most of the good and medium.

The sheep and lamb markets were active and firmer. Good sheep generally sold from 5c to 10c higher than at the close of last week, and the advance in lambs was even more marked. The receipts, which early were estimated at 12,000, were pared down to 9,000 later in the forenoon and the close therefore was quite strong. Choice to extra sheep were quoted at from \$5.25 to \$5.50, and the best grades of lambs were up to from \$4.25 to \$4.50.

Receipts: Cartile, 21,000 head; shipments, 4.000 head; market dull, 10@15c lower; best steers, \$5.50@5,34; good to choice, \$5.00@5,40.

Poor sheep sold around \$3.50, and then light lambs could be bought at from \$4.25 to \$4.50.

Receipts: Cartile, 21,000 head; shipments, 5.000 head; market slow; steady to 10e lower; mixed to good packers, \$7.95%25,50@5,50; assorted light, \$8.00@8,10; other light, \$7.50@7,75. pigs, \$5.50@6,50.

DENVER PROTESTS.

Her Citizens Pass Resolutions in Regard to Action of a Recent Mob. DENVER, Colo., Feb. 20 .- A meeting was

held at St. John's Episcopal cathedral, at which were present a large portion of the representative business men and citizens of Denver, to take action on the recent disgraceful gathering that surrounded Rev. Dean Hart's home a few Sundays ago and expressed its antipathy at the part the dean took in the closing of Sunday theaters. The mob consisted principally of boys, and no damage was done beyond the indignity offered the dean by the presence of such a crowd. Sensational correspondents exaggerated the report of the mob's action to such a degree that the idea spread throughout the east that Dean Hart's life was in danger and that property in Denver was unsafe because of mob law. Letters are still being received in this city inquiring as to the safety of life

Judge Moses Hallet was made chairman of meeting and Hon, Platt Regers, the mayor of Denver, Colonel John H. Platt and Hon. George K. Doale drew up resolutions de nouncing the action of the mob and censur ing those correspondents who sent false and papers, as enemies of the name of Denver

The resolution goes on to say: "The city owes Dean Hart a debt of gratitude for his eloquent fearlessness and great catholicity as a preacher and teacher, his courage in defense of good order and in denouncing lawlessness, his support of everything tending to good government, and his self-sacrifice in aid of the poor and helpless."

They close by expressing renewed confidence in Dean Hart, and calling upon all law-

abiding citizens to disabuse the minds of the people of this and other countries of any impression that they may have gathered as to the loyalty and the right of Denver's citizens to be considered as enlightened mem

A cablegram from England announces that he has secured a compulsory writ from the courts to enforce payment to him of the estate.

Secretary of the Treasury Foster Again Des nies the Latest Rumors.

New York, Feb. 20. - Special Telegram to THE BEE. |-The Sun's Washington special says: Secretary of the Treasury Foster denies the truth of the published report that he has made arrangements through New York bankers for the placing of \$25,000,000 in bonds in England. He declares that as his term only lasts two weeks he could in no event issue without consulting his successor, and it would be next to impossible to get the bonds out now before the 4th of March. He sees no call to issue bonds, does not believe the shipment of gold hereafter will be so heavy, and has \$5,000,000 of free gold in the treasury, with the prospects of an increase, rather than a decrease. He thinks certain American capitalists who have been using foreign bankers in Wall street to send gold out of the country are trying to put the blame on the agents, and the latter are not inclined to shoulder it. but feel like refusing to ship it freely here-
